## ABOUT CAFE FABA

## ABOUT CAFE FABA

### It All Started With a Bean

As a child growing up in Italy, I would wake up to my mother brewing coffee before she went to work every day. Coffee was freshly brewed at most meals--that's why it's always been a part of my livelihood.

### The Faba Dream

I came to the states with a dream of owning my own cafe. but found myself working in an office. My coworkers would come to me and ask me to share my fresh brew and soon enough, I was the "voluntold" coffee maker on the team. I found enjoyment in brewing coffee for my coworkers as my mother did when we had family and friends over. I rediscovered my passion, left my desk job, and my dream became Cafe Faba.

### Spread Peace, Share Coffee

Passion and a love for coffee and food is what makes us unique. We only use the finest organic and local ingredients to make sure that your order is as fresh as possible. We often use herbs and spices that come from our outdoor garden. We care as much about your health as we do the health of the planet. That is why we make sure that all of our utensils are either reusable or compostable. When you come to Cafe Faba, you can be sure that we add compassion and love in all that we do.

# CUSTOMER REVIEWS

**Kim L, Denver**

"I've heard great things about Cafe Faba and I'm so glad that I spontaneously went for brunch on Sunday. They have a fixed menu but always have dozens of specials running since they are seasonal farm to fresh. I highly recommend their vegan version of Eggs Benedict!"

**Larry L, Aurora**

"I frequent to Cafe Faba since they are around the corner from my office. Their specials are great but my favorite entree is their Avocado Toast Sandwich. Their brew is always deliciously fresh and perks me up in the morning and in the middle of the work day."

**Carly A, Highlands Ranch**

"Cafe Faba is a really cute place for a meal or coffee during the day and/or in the evening. The service was pretty fast despite the large crowd that was already there. I ordered a whole grain waffle with berries and a cappuccino--both which came out within 10 minutes of placing my order."

**Jessica G, Lakewood**

"For years I drove by Cafe Faba and would see the line out the door. I was once at the park across the street, and their brewed aroma lured me over. I was pleasantly surprised to find a loose tea and lunch joint. Their coffee perks me up in the morning and keeps me strong all day."

**Manny G, Denver**

"I love that Cafe Faba is friendly to both Vegans and Vegetarians. My girlfriend and I have a brunch destination that has delicious options for both of us. If you're looking for a lowkey brunch stop that has coffee from out of this world, this is the place for you."

**Kari L, Aurora**

"I recently moved here from Los Angeles and had high expectations of brewed coffee and cafes. Cafe Faba does not disappoint! They have brunch specials on the weekend that my roommate and I end up sharing. Everything is so delicious, we can never make up our minds."
